

PROGRAM #: EWAIACES05- SOLUTIONS FOR LARGE OPENINGS IN WIND BORNE / COASTAL AREAS

Length: 1 hour - Credits: 1 AIA HSW CE: HSW: YES - Sustainable: YES

Description: This seminar provides an overview of large opening glass wall systems, their structurally engineered components, and how they provide a perfect solution for large openings in coastal areas for commercial and residential applications. The course focuses on: benefits and applications, types of door systems, and door hardware.

Takeaways:

By completing this course, the design professional will be able to:

1. Discuss how large operable glass wall systems can be used in high-velocity hurricane zones while achieving the maximized opening design.
2. Summarize door selection and panel configurations and how this helps determine the most appropriate system and application for the project.
3. Define large opening glass wall systems and describe their functional and impact performance benefits.
4. Explain how certain components and materials contribute to the strength and durability of the frame and overall system

PROVIDER: EURO-WALL SYSTEMS
