

PROGRAM #2: IMOD08F - CHOOSE YOUR OWN ADVENTURE: THE OPERABLE WALL CHAPTER

Length: 1 hour - Credits: 1 AIA HSW CE Hour - HSW: YES - Sustainable: YES

Description: Operable walls offer the opportunity to maximize any space by implementing superior engineering, aesthetics, and technology. Join us in this one-hour course as we dive into key understandings of operable partitions to address panel construction, suspension systems, sealing mechanisms, design options, automation, and safety

Takeaways:

1. Define operable wall systems and discuss how they can improve occupants' wellbeing by implementing space flexibility and daylighting through various panel configurations.
2. Compare and contrast the different suspension systems available for use with operable partitions.
3. List the various types of acoustical seals that can be used with operable partitions in order to improve occupants' health and well-being in multi-use spaces.
4. Identify safety considerations of operable partitions, including stopping electric partitions, protecting spaces from fire, and ensuring appropriate clearances.
